One partner

One platform, one partner for complex mobility finance operations

Whether you operate in automotive finance, vehicle leasing and rental, commercial finance, equipment leasing, fleet, or mobility services, your business needs software that can adapt as products, channels, and customer expectations evolve.

SOFICO helps you connect front-, mid-, and back-office operations, manage complexity at scale, and deliver consistent experiences across digital and physical channels.

Automotive finance

Support direct and indirect finance journeys across retail, dealer, and digital channels.

Vehicle leasing & rental

Manage the full lifecycle of leasing and rental contracts with flexibility and control.

Fleet & mobility management

Enable fleet managers, drivers, and mobility users with connected tools and self-service experiences.

Commercial & equipment finance

Support more complex contract structures, pricing, billing, and asset-based finance processes.

Claims management

Extend the ecosystem with digital accident management & claims handling through UBench, a SOFICO company.

SOFICO Cloud

SOFICO Cloud delivers secure, Azure-based flexibility, control, and performance for your automotive finance operations.

SOFICO Intelligence

SOFICO Intelligence brings AI into the contract lifecycle, turning contract, fleet and claims data into prioritised decisions with a clear financial impact.

Product ecosystem: SOFICO Miles Enterprise at the core

A connected platform for contract management, retail, fleet, and digital operations

Core

SOFICO Miles Enterprise

SOFICO Miles Enterprise is the mission-critical contract management platform trusted by global leaders in automotive finance, leasing, fleet, and mobility management. Around it, SOFICO Miles modules extend capabilities across retail journeys, fleet services, document automation, pricing, customer self-service, and claims management.

- Connect vehicles, contracts, and business lines in one integrated platform
- Expand customer journeys with SOFICO Miles Fleet and Retail modules
- Configure business processes and integrate with enterprise systems
- Trust enterprise-grade scalability, high availability, and built-in security

Retail

SOFICO Miles Retail Modules

SOFICO Miles Retail Modules help you deliver integrated financing and leasing offers across direct and indirect vehicle sales channels, from first interaction to contract management. They support smoother, connected journeys for private consumers and SMEs.

SOFICO Miles Dealer Point of Sales

Equip dealer and sales networks to manage quotes and origination offers.

SOFICO Miles Showroom

Enable direct online engagement, from browsing vehicles to contract completion and delivery.

SOFICO Miles Customer Self-Serve

Let customers manage contracts and personal data, reducing pressure on back-office teams.

Fleet

SOFICO Miles Fleet Modules

SOFICO Miles Fleet Modules support digital touchpoints in customer journeys and help streamline sales and fleet management processes with flexibility and agility.

SOFICO Miles Fleet & Driver

Help fleet managers manage fleets, users, mobility budgets, car policies, and quote approvals, while drivers find vehicles based on budget and policy rules.

SOFICO Miles eDocs

Securely share digital forms and documents, enable e-signatures, and support approval workflows.

SOFICO Miles Salary Sacrifice

Streamline salary sacrifice calculations and improve sales efficiency for UK-focused use cases.

Why SOFICO

From contract origination to asset end-of-life, SOFICO helps you move forward

With SOFICO, you gain more than software. You gain a partner with deep industry expertise, a global footprint, and a long-term focus on helping automotive finance, leasing, fleet, and mobility businesses adapt to change.

SOFICO combines scalable technology, implementation experience, and ongoing support to help you improve operational efficiency, connect customer journeys, and manage growth with confidence.

Industry focus

Purpose-built for automotive finance, leasing, fleet, and mobility operations.

Platform flexibility

Support multiple business lines, contract types, channels, and markets.

Modular growth

Start with the capabilities you need today and expand as your business evolves.

Long-term partnership

Benefit from expertise across implementation, onboarding, training, integrations, SOFICO Cloud, and the SOFICO Miles Community.

UBench

UBench, a SOFICO company

UBench, a SOFICO company, extends the SOFICO ecosystem with digital claims and accident management capabilities.

UBClaims helps leasing and insurance companies manage claims workflows more smoothly, reduce manual coordination, improve communication between parties, and keep drivers informed throughout the claims process.

More efficient communication flows

Less administrative workload

Lower repair costs

Faster repairs

Higher customer satisfaction
